

BIG SHOT

HAND OPERATED PUMP

Variable .33 to 3.33 ounces per push

The Knight Big Shot pump is a simple, yet versatile hand pump with built-in dispense control manufactured to pump a multitude of cleaning chemicals, for reliable and accurate application.

Low Cost

Simple

Reliable

KITCHEN SYSTEMS

- Saves you money by accurately dispensing of pot soaps, hand soaps, sanitizers, teat dips, laundry detergents, and other liquids
- Materials compatible with chlorine, alkaline or acid base products
- Rugged construction
- Calibrated at .33 to 3.33 ounces per push - controls usage!
- Rapid priming even with viscous products
- Installs within minutes

KNIGHT
A unit of **IBEX** Corporation

Built in Dispense Control

The Big Shot has the unique capability to regulate fluid control to fit your every dispensing need. After removing the outer case, simply rotate the knob to one of the nine setting selections to regulate the fluid amount. The variations in dispensing amount ranges from .33oz/10ml to 3.33oz/100ml. Check the dosage chart for the setting and dosage amount you prefer.

Dosage Chart

Number	1	2	3	4	5	6	7	8	9	10
mls	10	20	30	40	50	60	70	80	90	100
fl oz	1/3	2/3	1.0	1-1/3	1-2/3	2.0	2-1/3	2-2/3	3.0	3-1/3

Dosage Settings

Great Value

This low cost pump will save you in over usage by accurately dispensing only what you need each and every time. Big Shots durable parts and simple construction is built to stand abusive treatment and harsh chemicals, ensuring carefree reliability. Its resistance to chlorine, ammonium chloride, caustic soda, and surfactants allows the Big Shot to be versatile in various markets and conditions.

Versatile

Kitchen

Dish detergents, hand soaps, sanitizers, hard surface cleaners

Janitorial

Soaps, laundry detergents, sanitizers

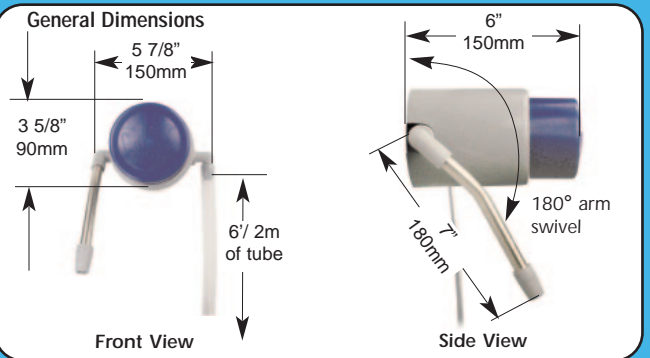

Commercial

Teat Dips, hand soaps, sanitizers
