

On-Premise Plus®

LIQUID AND SOLID DISPENSING SYSTEMS FOR 1 AND 2 PRODUCTS

The On-Premise Plus is the laundry industries most feature packed and adaptable dispenser for laundry machines in the 35 lb. - 125 lb. category. The multiple formula remote control provides 8 user selectable wash formulas for dosing a variety of laundry soils. The "OPP" includes a low voltage Washer Interface Module that connects directly to the washers and triggers the dispenser to deliver chemical at the correct interval. This versatile system adapts to the need of your customers. With over 10,000 systems installed around the globe, the On-Premise Plus is proven technology you can rely on!

OP-501S

OP-502LS

- Watertight, Impact Resistant, Thermoplastic Case
- Plug and Play Cable Connections
- Low Voltage Washer Interface
- Intuitive Remote Control w/8 Formula Capability
- Proven Reliable Peristaltic Pump (10 oz./min.)

DRY DISPENSING SYSTEMS

The DDS-1000 Series was the industries first "all inclusive" dispensing system for Solid and Screen Feed Chemicals. This powerful system includes a built in transformer, water solenoid valve, internal plumbing assembly, Ultra Power Bowl Feeder and optional timer control in a robust stainless steel case with locking front cover. Bi-directional water inlet plumbing provides connectivity for multiple units to operate from one water source.

- Safe, Secure Locking Stainless Steel Case
- Built-in Ultra Power Bowl Plus w/Vacuum Breaker
- Built-in Step Down Transformer (115/208/230 VAC)
- Available with Internal Timer (KTM-500)
- Exclusive Programmable Product Lockout Manual or Automatic Dispensing

APPLICATIONS : Top Load or On-Premise Laundry Machines in Nursing Homes, Restaurants, Motels, Shirt Laundries, Hotels, Car Wash Stations and other institutions.
