

MICRO-PRO

Warewash Control Systems

KEY FEATURES

- Tilt-Up or Tilt-Out Covers for Settings Adjustments
- Probe or Probeless Operation
- Built In Transformer - 115-230 VAC 50/60 HZ
- Long Life Motors - Up to 3,000 Hours
- Long Life Probe Circuit
- Proven Long Life Squeeze Tubes
- Alarm with Volume Control

Micro-Pro warewash systems provide the ultimate in versatility and convenience. Hinged cases and covers make setting and servicing the units quick and easy. All units feature probe or probeless operation. With the capability of controlling up to three products, Micro-Pro systems can accommodate virtually any warewash application.

Micro-Pro II features include high and low range concentration settings, rinse delay, rinse limit, and pump options for dry detergent, liquid detergent, and sanitizer. Mount on the wall or on top of the machine by rotating the pumps and adding the two suction cup feet provided. Micro-Pro II models come in a stainless steel case with a splash-guard plastic cover.

The Ultra Micro-Pro UMP-100L dispenses a single, liquid product for machine cycles that do not require a rinse agent and comes in a thermoplastic case with a hinged front for easy maintenance access.

▲ Ultra Micro-Pro UMP-100L Concentration Control System (#7162800-07)

▲ MP11-300L, Liquid Detergent, Rinse, and Sanitizer Control (#7162710-CA)

▲ MP11-200D, Dry Detergent and Rinse Control System (#7162705-CA)

Trusted solutions. – Simple. Clean. Connected
